

December 15, 2011: Table Top Telephone Company Press Release – Table Top Telephone Company has received and investigated reports of vandalism and damage to its telecommunications facilities at multiple locations within the Seligman, Arizona area. The Company has been working with local authorities to identify individuals who have participated in these destructive activities.

The Company's primary concern is the safety of the public, including the individuals participating in these acts of vandalism, since removal of telephone facilities can lead to injury and can adversely affect emergency-911 services. The Company is also reminding the public that removing or tampering with property owned by or connected to a utility company's facilities is a civil offense that can lead to prosecution.

If you have information about anyone removing telephone poles or other telecommunications lines in the Seligman area please contact Table Top Telephone Company at 1-800-560-9101 immediately to report what you have seen.
